tection to which it is entitled, and which it is entitled, and which it should have had long ago.

It is somewhat remarkable that notwithstanding the fine quality of our mountain apples that we are dependent to such a great extent upon Northern orchards for supplies of this fruit. Considering the prices at which they sell, the ready and unlimited demand for good apples, there ought to be as much money in a well managed apple orchard as in a F. orida orange grove. We are told that one of the reasons why our merchants seek the Northern apple.

In a F. orida orange grove. We are told that one of the reasons why our merchants seek the Northern apple.

In a fact that we are the despondent of all impurities, unlocks the other day, said: "I intend to stand the three day, said: "I intend to stand the other day, said: "I intend to stand the lever as the despondent, strengthens the feeble, cause I know that when I stand by you and assist in strengthening a barrier against sectional persecution; restores anture to brain, clears and beautifies the complexion, clears and beautifies the complexion, clears and beautifies the complexion condition, unclouds the troubled to said the liver, arouses all secretions, restores nature to the sentifies the complexion, clears and beautifies the complexion condition, unclouds the t in preference to our home raised was that of the late Valentine Mott, fruit, whose excellence they recogize, of New York. Its formula is: Tines which much of it is handled and shipped, being shaken from the trees bruised and damaged, instead of being picked and nicely packed for shipment as Northern orchard mendo. This makes the Northern apple more presentable, makes it keep well and consequently the purchaser incurs less risk in purchasing large quantities. As proof of this, we have pusatifies. As proof of this, we have seen barrels of splendid mountain apples shipped to Charlotte so care-lessly packed and bruised that the lessly packed and bruised that the was neater and more accurate than the lessly packed and bruised that the und maged ones was an exception.

Of course they were not in demand, and probably realized such a return

TESTIMONIALS.

True Merit Wins Where Practical Men are Judges. Read What is Said About JELLICO MOUNTAIN COAL.

WATER WORKS, ATLANTA, GA., September 25th, 1883
The engineer of the Water Works reports this morning that he has completed a 24
nour's test of the Jellico Mountain Coal. The test is as follows: Water pumped, 2787,200 gallons; Coal consumed, 12,000 pounds; water pumped to 100 pounds of coal, 21,606 gallons; water preasure maintained through test, 140 pounds, head, in feet, 323 to which the water was pumped; total number of pounds raised 323 feet, 25225,737,6; millions pounds raised one foot with 100 pounds coal, 75,079,122, which is more than the builders guaranteed the engines to do with the best coal. Mr. Terry reports only 760 pounds ashes taken out, and no clinker and that the fires were not cleaned during the whole 24 hours. From the result of the above test I must pro-

nounce the J. M. an excellent steam coal. Respectfully, W. G. RICHARDS, Supt. Water Works. N. B.—Since the above test another has been made in which 28,773.3 gallons water were raised to 100 pounds of coal, instead of 21,606 in the first test. This shows an increase of over 7000 gallons over any other coal, a fact of itself worthy of note.

W. G. R., Supt.

Chattanoga, Tens, June 9, 1984.

We regard your coal as the test we ever used. In our test we saved two hours time in making seven heats in heating furnace over the next best coal we use. Only have to clean grate one a day with it; with the other we have to clean twice, and often three times. It is the purest coal we ever used.

NORFOLK & WESTERN RAILROAD COMPA Y. Office S NORFOLK & WESTERN RAILROAD COMPA Y, Office Superintendent Western Division.

LYNCHBURG, Va. 16th, April 1884.

We have obtained reports from the engineers w, o have used your coal which are of the most satisfactory character. They speak well of the hoal in every respect. They all say that it is the best coal they have ever used coming from the line of your roap.

FRANK HUGER.

We burned the Jeilico Mountain Coal on the steamer Water Lily during last winter and think preferable to other coal. It burns up without leaving so many clinkers as other coal. We are well satisfied with the Jeilico Mountain Coal, after thoroughly testing it at our mill. We consider it the cheapest coal we buy owing to the fact that there is less waste.

TP McDANIEL & CO. There is less dust and ashes from Jellico Mountain Coal than any we have heretofore used I find il ere is less waste in the Jellico Coal than any I have used. It burns free and leaves J H BEAN We fird that there is less dust and ashes in our houses when we burn Jellico Mountain Coathan when using other coal.

R.G. OSBORNE.

We are very well satisfied with Jellico Mountain Coal. Cousider it the best on the market:
